DETAILED ACTION

1. Applicant has amended claims 1, 3, 6, 13, 18, 19, 20, 23 and canceled claims 2, 22, 26-27 in the amendment filed 1/24/2005. Claims 1, 3-21, 23-25 are pending in this Office Action.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Attorney Edward J. Grundler. Reg. No. 47,615 on 3/2/2005

In the claims:

Please replace original claim 13 with amended claims 13.

13. (Currently amended) A method of automatically invalidating cached data, comprising:
at a cache system physically separate from a data server configured to originate data to be cached in the cache system, caching a first set of data at a caching system for serving in response to a view request, wherein said view request comprises a request to view said first set of data, and wherein said first set of data is received from a data server;

receiving at the caching system a change request from a client, wherein said change request comprises a request to change said first set of data; identifying said first set of data from said change request; identifying a relationship between a second data item and a first data item, wherein said identifying a relationship comprises comparing a pattern of said first request to a first rule for determining when to automatically invalidate a set of data, wherein said first rule comprises a first pattern for identifying a request in response to which a set of data may be automatically invalidated, and further comprises a second pattern, different from said first pattern, to identify said set of data to be automatically invalidated; comparing said change request to a set of rules for determining when to automatically invalidate said first set of data; and automatically invalidating said cached first set of data without waiting for the data server to implement said change request, wherein invalidating said cached first set of data is in response to the view request.
